SQL	Data Structures
GCP	Git

PROJECTS

Personal Portfolio

With JavaScript, HTML, and CSS, I crafted an interactive web-based rendition of my professional resume. This platform also showcases additional projects I've developed, all of which are accessible via my GitHub repository.

E-Commerce Store

In collaboration with a dedicated team, I spearheaded the development of an online store program using Python. This endeavor not only enhanced my proficiency in object-oriented programming and database management, but also deepened my familiarity with the Agile methodology.

Google Cloud Platform

I established virtual machine instances on Google Cloud Platform to gain a comprehensive understanding of its functionalities and best practices.

Machine Learning

With the Fashion MNIST dataset, I utilized probabilistic methods to perform modeling, prediction, and generation for the domain of fashion images.

EXTRACURRICULARS

Music Maker Productions 2021-2023 Director of Artist Relations

Orchestrated and marketed concerts for both the MSU community and the broader Starkville audience. I lead a committee responsible for ensuring seamless hospitality arrangements for the featured artists.

Brick Fire Project / 2020 - 2021 Mentor

I mentored elementary and middle school students in underserved regions of Starkville, MS.

New Maroon Camp / 2020-2022 Programming Staff & Counselor

I helped organize a week-long orientation camp to facilitate the integration of 1,500 incoming Freshmen into campus life.
